4th. Once more; it was given as a means of bringing about that state of things for which Jesus so ardently prayed-the union of christians. The holy Jesus never prayed a prayer in vain. He always knew his Father heard him. What can unite them but an "one Lord, one faith, and one baptism ?" One Lawgiver and one code of laws, and one faith in that code, one baptism to bring them under that code of laws as citizens of the commonwealth of heaven. Now if any human instrument can be produced that will bring about such a state of things, I will only instrument upon which a christian church should be constituted. The Bible alone should be the religion of protestants: leave human creeds to Romanists among whom they originated.

FEMALES IN CHINA.

But in China, as in all Pagan nations, the worst features of heathenism, he said, were exhibited in the degradation of females. Female infants were never counted among the children of a household, nor mentioned even-it being considered a reproach to have them. A mother there can not only "forget her nursing child," but destroy it with her own hands. This, so far as the children were concerned, could not perhaps be considered as a misfortune, as it was generally believed they were happy in another state, and not only so, they were saved from a life of antold wretchedness. Those spared were, before mey attained the age of womanhood, secluded from all society, denied entirely the advanta-ges of education, and regarded merely as property to be sold to the highest bidder. When a female became a wife, it was only exchanging a master with whom she was familiar, for one she had never seen, and, probably, to share her person, and the scanty favors of her lerd, with envious rivals .- Mr.

Doty, missionary. "Such is the condition of woman in China. It becomes christians, and especially christian women, to consider those who are in such a state of degradation. All we enjoy, above such a condition of thraldom and wretch doese, is derived from the gospel. Our ancestors were equally degraded, and among them the women were to more esteemed. But men of G. I, heard of Albion, and had compassion, sent missionaries and the Bible, and we are enjoying the blessings thereof. The protracted meeting in this place, mentioned last week, is in progress. Many more souls have been coabled to embrace the Saviour, and rejoics in his pardoning love. Thus, we see, no one of these nations imposes a duty so high as the one proposed for us. Even Great Britain, where taxation is so oppressive, falls eight per cent short of our mark!

The city Bible Society has ever sought and is now seeking to reach those who are destitute of religious, privileges wherever such destitution has been known to exist. While Providence has smiled propitionsly on our efforts and blessed them even beyond our expectation, it has also furnished still greater incentives to activity and enterprise. Truly we can say the dispensation of charity is offentimes its own reward. While the City Bible Society has thus sought to supply the destitute with the Word of God, its own usefulness/has apparently increased its resources, as though a promise of rejoicing was returned even to the unknown giver. The City Bible Society has now on hand a supply of Bibles and Testaments adapted to general circulation, which it is proposed to furnish to ministers, colporteurs and others, to be sold for a reasonable price or or even to be circulated gratuitously among those who are unable otherwise to purchase them. While the City Bible Society, under the blessing of God, relies upon the generosity of a public heretofore of approved liberality, for the means of distribution, it also seeks to reach every destitute village and hamlet in the land.

And I think all who were present, will remember what it is "to draw a bow at a venture."

There is so much of godliness and humble devotedness to his present commander Jesus Christ, in this aged and veteran soldier of the cross, that I will give another incident of his life. In the battle of Emuckfaw, he was shot through the body with a rifle ball, which entered his left side a little above the heart, and was taken out about the point of the blade bone. He was present at a meeting of the Talladega church, where brother Davis, an agent for the Indian Association, providentially met with us, After bro. Davis explained the object of his agency, our venerable brother said: "Well, I have been engaged in killing the Indians, but to adopt the soldier's life, will find an adnow much more heartily engaged in suving their souls," and put up five dollars. - From the Tennessee Baptist. "WENT ABOUT DOING GOOD."

This was the especial business of the Redeemer while upon earth. And to do it he gave up the employment, the ease and elegance of the upper kingdom. He did not wait for objects to be presented, but sought them out from amongst the poor and degraded, as well as the wealthy and honorable.

Christians are the followers of Christ, who has said "except a man deny himself and take up his eross and follow me he cannot be my disciple." Every man and woman, then, who is a follower of Christ, goes about poing coop. Now in view of these facts we ask, who is a follower of Christ at this day! We admit that Christians generally will not get out of the wa; of doing good. But who leaves. his shop, his field, his counter, and starts out with the special intention of doing good! Who leaves his ease, his enjoyment, that he may converse with a sinner in regard to his eternal interest? And yet you say you are Christians. How can you reconcile this idea with the injunction of the gospe!! How can you read it without feeling condemned by every page! What good have you done as a matter of course, when you felt called upon? The world has done much good in this way. But we ask how much good have you done, prompted alone by your obligations to the Savior. How often have you left your business and gone forth to save a soul? Answer these Saviour who bled and died for you. If so then begin this day to go about doing good. Select some one for whom you a comparison. > DESTITUTION AND SUPPLY .-- I presented my books in a log-house that bore marks of extreme poverty. The woman approached my basket, and casting her eyes on Baxter's Saints' Rest, said, "I once read that book-it is a most precious book; I wish that I had it." I asked her to buy it. "I have no money," she said. I enquired it she had a Bible. She replied that she had not. Have you any religious books? "No?' THE EFFECTS OF STUBBORNNESS .- A jackass the other afternoon, while dragging a Carolina Baptist. load of clams up Greenwich street, became refractory, and would not pull. His owner after using various expedients to induce the unwilling beast to perform his accustomed duties, was finally obliged to take him from the wagon when the obstinate brute immediately commenced backing, and, in spite of all the efforts of the bystanders, made a complete stern board into a soda shop, and upsetting the counter, so disarranged the apparatus that it exploded with a report like a field piece, scattering the fragments in all directions. Fortunately none of the spectators were injured; but the donkey, who was the main cause of the catastrophe, was curtailed of his fly-whip in the twinkling of a soda cork, and sprung from the bushel of lime, adding as much sand and He was re-harnessed, and went up town no offsetts for the soot to lodge on, it will entirely satisfied with his adventure. RECRUITING .- Those persons who desire

vertisement for recruits for the general service and 2d Dragoons. There is a great misapprehension in regard to the mode of enlistment into the United States service, and the position of the soldier there. It is thought that men are rather trapped into enlistment, than taken in a fair manner, and that character is of little consequence This is not true. The law is very strict upon this subject, and entirely just. An intoxicated man is neven. nor is any one enlisted at once. Time is given to all to reflect, before they are finally received, and even then, if they desire to abandon their intention within a reasonable time, they are permitted to do so. Heads of families are not taken; and for a man of steady character and principles, the pay is better than is realized in most mechanical occupations .-Clothing, food, medical attendance, and all necessary expenses are paid by the government, leaving the regular pay to be saved, if the man be prudent and economical. Mourn not for me when I am gone, Nor round my bier Shed one sad tear, Nor put for me your sable on.

I go to him who died to save ; In him I trust, And though to dust
My flesh shall moulder in the grave,

Yet, soft and sweet shall be its rest. While far on high, My soul shall fly, To be forever with the blest.

It may here be remarked, that this abstruse, yet most important branch of Eurisal Science is usually entry by aminent Professors of the art, ladies not generally pretending to such attainments as to be able to give instruction in it.

It also deserves consideration, that not in this highest department of the science alone, but at every step of the pupil's course, the instruction imported by competent Gentlemen is justly considered far more valuable than that given by a Lady, however accomplished. Proof of this is found in the fact, that the salaries of distinguished Professors are three or four times as large as hose obtained by the best Female Teachers; and im the further well-known fact, that these ladies them-selves are taught by gentlemen. Music scholars in this Institution, therefore, enjoy all the advantages which the Teachers of other Institutions have ever enjoyed.

IT is the design of this Institution to furnish instruction in all the branches of an English and Classical Education.
