There is a thought for every Christian in the land. The "country judge" was unwilling to hinder the people in their "religious practices," and all he required of them was that their messiah should rise. There came the test. Some people join the church with the idea that to "get in" is all ments: we will be fruit-bearers. One un converted person in the church does mo harm to the church than any ten outsid If we are not faithful, if we do not proby our works that we are indeed God's chiltren through Christ, then we fall in the cat. Our doom is certain if we go contrary o the commandments of God.

There was another large congregation present and a deep spiritual feeling pervaded the services.

The Sunday-school is beginning to improve in attendance. The teachers and scholars are returning and all the work of the church is taking on new life. The members seem determined to push the work Some needed discipline is being firmly enforced.

JUDSON INSTITUTE.

We have not heard of more than two pupils of the Judson of the session of '90-'91, who will attend school elsewhere the next session. On the other hand I am informed that several of the undergraduates will bring their sisters with them on their return in October. One of them expects to bring with her four new pupils, friends of hers, and another one, three.

Ten states were represented during the ast session. I am convinced that there is a positive advantage derived from the association, in school life, of teachers and students, who come to the Judson from so

many different sections of our country. The Board of Trustees has ordered an enargment of the study hall, so as to accommodate fifty more students in the collegiate department. The hall will be furnished with the best folding top desks.

The uniform goods may be furnished after Sept. 15th to such students as may wish to have their dresses made at home. Let the dress at the rate of eighty-five cents per yard. The hat and gloves will be furnished when the students reach the Judson. The whole suit may be had at the Judson

Two Full Graduates of the Judson, one having two years' successful experience in teaching, and the other, fine natural talent and attainments but no experience, are without positive engagement for school work for the next session. I would recommend them with confidence to school authorities. Applications for their services

may be addressed to me.

As we have no pastor this year, and really no church system whatever, I feel impelled. as secretary of our little Sunday-school, to pen, in addition to our superintendent's farewell thanks, a few words, more in grateful acknowledgement of our indebtedness o the brothers and sisters of the Baptist Sunday-school Convention, which lately convened at Coosada, or rather, Robinson

I have no words to express our keen enoyment and deep appreciation of the high order of intellectual talent and spiritual wisdom that permeated the well-timed lectures and discussions with which we were favored That we were instructed as well as entertained, goes without saying. And, astly, the financial aid rendered us was mply marvelous. We stand even yet gazng upon each other in amazement, wondering how it all happened. Who can doubt that the Spirit of God moved among us? And that his presence came in direct response to the fervent and repeated invocaions of Bro. Dickson and his co laborers n this work for Christ? Right here I think I can aptly apply that Scripture passage, "By

The ir quiring suggestion of Bro. Davideachers were really going to take hold and do the work that the good people of the Rally" were trying to impress upon their minds, struck me forcibly. I have charge of the infant class in our Sunday-school, and it seems that any Christian of ordinary intelligence and piety could teach such a class. It is the earnest desire of my heart to do my whole duty by them as God would have me do it

Died, of typhoid fever, in Mt Olive beat, August 9th, Rebecca Roberson, wife of J. W. Roberson. Sister Roberson was a member of Mt. Olive Baptist church for many years and a devoted Christian, manifesting great interest in the cause of her Savior. She leaves a husband, three sons and two daughters—all members of the church. Her daughter Adella preceded her to the grave about two weeks. She was about twenty years old, a member of the same church. The church and community join in sympathy with the grief stricken family, who can say, Blessed are the dead which die in the Lord; yea, from henceforth they rest from their labors; and their works do follow them.

Says of Johnson's Chill and Fever Tonic. Office of Dr. THEO, TURNFULL,

Pres. State Board Medical Examiners, and

Pres. Jefferson County Board of Health. -Surgeon of S. F. & W. Railway. MONTICELLO, FLA., Feb. 13, 1890. I certify that I have prescribed it in hundreds of obstinate cases of Bilious, Intermittent and Remittent Fevers with excellent results I therefore, from the knowledge of its formula, can conscientiously recompublic generally. In Neuralgia arising from general debility or of Malarial origin "Johnson's Tonic" is a specific. In parturient women who suffer from Malaria, Bilious Feuinine or mercury are not admissible, "Johnson's Tonic" can be given with speedy relief and without harmful results. In delicate stomachs where the taste is objectional ble, it can be instantly removed by placing a small pinch of salt (sodium chloride) in the mouth immediately after taking.
THEO. TURNBULL, M. D.

ffice of J. F. KINCHELOE.

CONWAY, ARK, Feb. 26, 1891. Mr. A. B. Girardeau, Savannah, Ga : DEAR SIR-Your Johnson's Chills and Fever Tonic has given good satisfaction. Last fall we had a good many cases of slow Fever n our town ond surrounding country. Some of the M. D.'s called it Typho-Malarial Fever and some of them called it Genuine Typhoid Fever. Some of these patients died and those that recovered were sick from four to eight weeks.

I gave some of my patients your Chill and Fever Tonic, after trying the remedies en-dorsed by the regular Allopathics two weeks, and in every instance, your Chill and Fever Tonic had not been given more than 24 hours when the fever cooled down and did not return; the patients were convalescent and regained their former good health rapidly. But M. D.'s are slow to abandon the old road. We most generally prefer the old ruts, when we might get into smooth roads and conduct our patients through much easier, better, cheaper and quicker, if we would only be guided by good common sense, and not condemn a remedy because we do not know all the ingredients entering into it. "THE WOMAN'S UNIVERSITY OF THE SOUTH.

Opens the First Day of September. Scottsboro, nestling amidst its mountains, on the highest point along the line of the Memphis and Charleston Railroad, is pre-eminently healthful. There is absolutely no local cause to result in sickness. According to medical authority, vital statistics for a series f years past, show the death-rate of Scottsboro to have been less than that of any other town or city in Alabama, while the death-rate of Alabama for the same period was less than that of any other State in the Union. Think of this before sending your sons and daughters elsewhere. The sale of liquor within twenty miles of the college is prohibited by law. The Faculty is seldom equalled in excellence of scholarship and character. There are ten members of this faculty, and the college is fortunate in securing the services of such a devoted and strong body of men and women. The curriculum is high and well arranged, having been prepared to give students not only scholarship and strength of mind, but also a knowledge of practical life that they may be able to enter life on leaving the schoolroom not empty handed and full headed, but full handed as well as full headed.

The Vanderbilt Children. How They are Educated and Trained. Although all the members of the Vanderbilt family entertain on a magnificent scale, says a writer in the Lais an unpretentious meal, with plenty cine, try Hood's Sarsaparilla. of fresh milk, eggs, oatmeal, and a bit of steak or a chop that will add strength to their physique and color to their cheeks. After breakfast there is an hour of study. There is some thing for these little ones to do at all times during the day. They go through their studies systematically, and then, about half past nine, are taken out for a walk. They are al lowed to romp in the streets and in the parks to their hearts' content At eleven o'clock they are brought home and a light luncheon of milk and bread is served, after which there are more studies-either French, German or drawing—and then another breathing spell-it may be horseback riding, or a drive out through the park and along the country roads. Back they all come about four o'clock, and there is another hour of study, and then they are through for the day. They are allowed to do just as they please until tea time, when, after their meal, they spend an hour or so with their fathers and mothers and others who may drop in to call. Promptly at eight o'clock they are all in bed to sleep soundly, and get up the next morning and go through the same pro gram. So it is not strange that all the children of the Vanderbilt family are further in advance of their little friends in the matter of education. For they study, study, study all the time They are all fond of music and most of them can play on the piano. The girls are learning to play on the harp, and the boys are famous among their iriends as violinists, and barjo players If you were to see these children on the street, you would not for a moment suspect that they were other than children of parents in ordinary circumstances They make no display at elaborate dress The eld est of Cornelius Vanderbilt's daugh
